Blackmagic Disk Speed Test

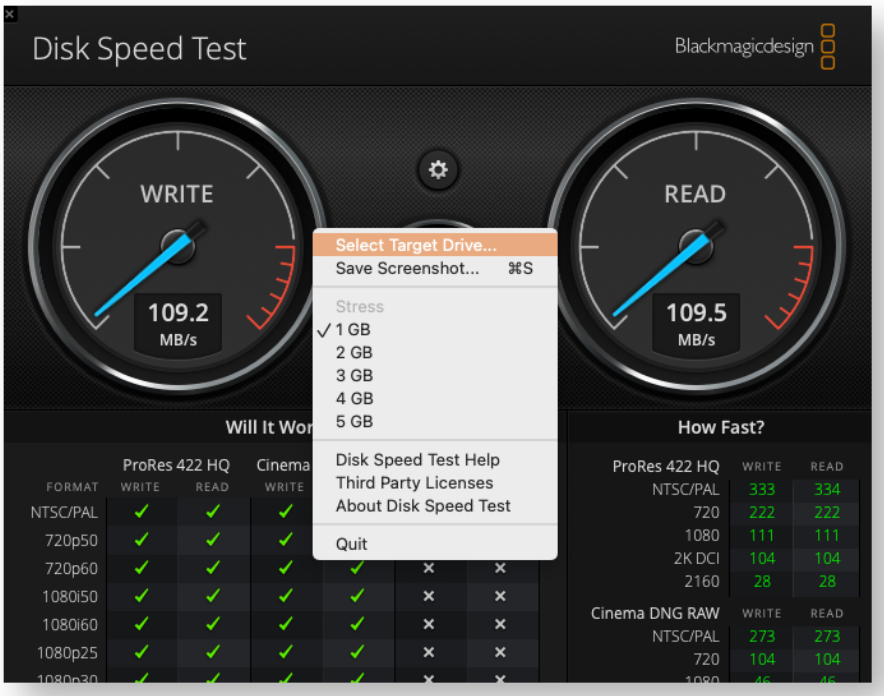

CAD Tech Student Managers - 2026-11-26 - How-to Articles

Follow these directions to test your drive's read/write speeds.

1. If testing an external drive, connect that drive to your computer
2. Launch Blackmagic Disk Speed Test
3. In this window, click on the Gear Icon

4. In the drop down menu, choose **Select Target Drive....**

5. In this window, navigate to a folder on your external drive and select it. Then click **Open**
6. Now click the **Start** button and let a full test complete (both write and read)
    1. **Note:** You will need to manually stop the test once both have ran
7. Now take a screenshot of the results by hitting **command-s** and save that screenshot to your desktop
8. Send screenshot to requestor via email
