

Enscape Plugin for Revit 2025

Joe Schultz - 2025-01-02 - Computer Labs

For faculty and students using Enscape in CAD computer labs, due to recent changes in Enscape's licensing mechanism, our previous deployment method for installing and licensing Enscape for Revit does not work with v4 of Enscape, and v3 only supports up to Revit 2024.

While CADTech seeks to remedy the deployment issues with Enscape 4, please use Revit 2024 to access Enscape. We seek to have a solution ASAP.
