RIT | College of Art and Design

How to Connect to Network Shares

CAD Tech Student Managers - 2023-02-07 - How-to Articles

IMPORTANT: If you are off campus, you must first connect to the **RIT VPN**.

Mac OS

- From Finder, click the Go menu, and then select Connect to Server.

- Type in the address of the share you want to access and click Connect. Below are some available shares and their addresses.

Transfer: smb://CAD-files.main.ad.rit.edu/transfer

Courses: smb://CAD-files.main.ad.rit.edu/courses

Help: smb://CAD-files.main.ad.rit.edu/help

**Rendershare:** smb://CAD-files.main.ad.rit.edu/rendershare/

My Shares: smb://CAD-files.main.ad.rit.edu/my_shares

- When prompted, enter your RIT username and password, and click Connect. You should now see a window pop up with the file share.

Windows

- Click the Start menu and then select Run. Alternatively, hold the Windows key and type the letter "R".

- Type in the address of the share you want to access and click OK. Below are some available shares and their addresses.

Transfer: \\CAD-files.main.ad.rit.edu\transfer

Courses: \\CAD-files.main.ad.rit.edu\courses

Help: \\CAD-files.main.ad.rit.edu\help

Rendershare: \\CAD-files.main.ad.rit.edu\rendershare\<Your RIT Username>

My Shares: \\CAD-files.main.ad.rit.edu\my_shares

- When prompted, enter in your RIT username and password and click OK. Important: If your first login attempt fails, enter your username with 'MAIN\' like this: MAIN\abc1234. This will force your personal computer to authentication against RIT's directory.
