Set Default Apps in Windows 10

Brie McIntosh - 2022-04-07 - How-to Articles

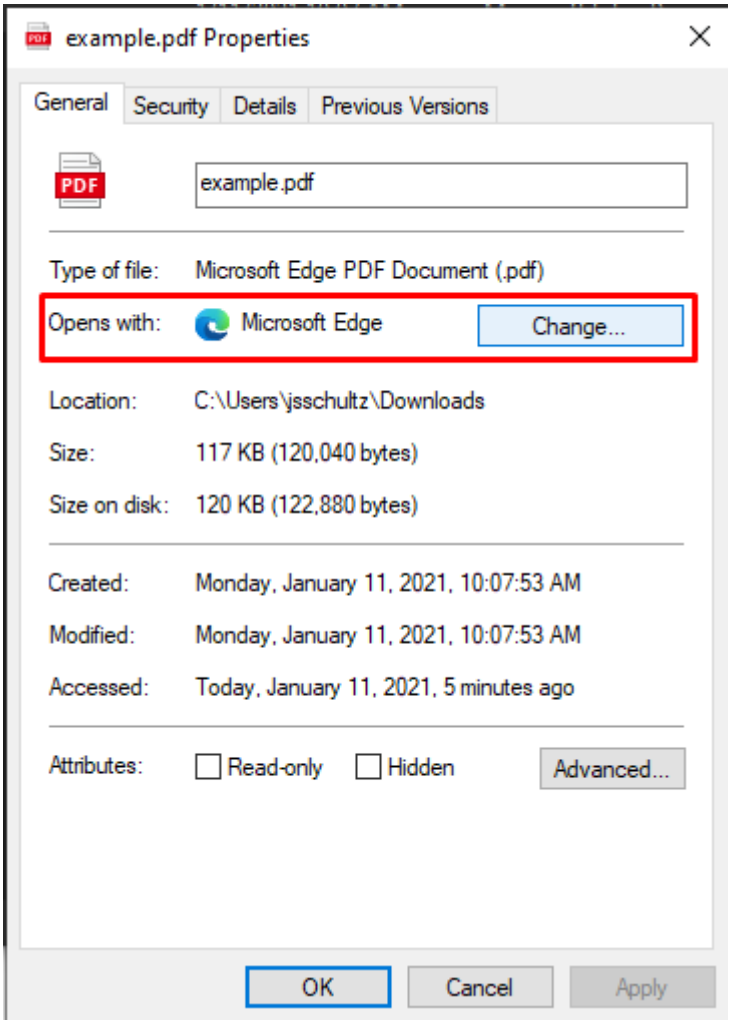

In Windows 10, to change which app opens a certain file extension by default, please do the following:

Step-by-step guide

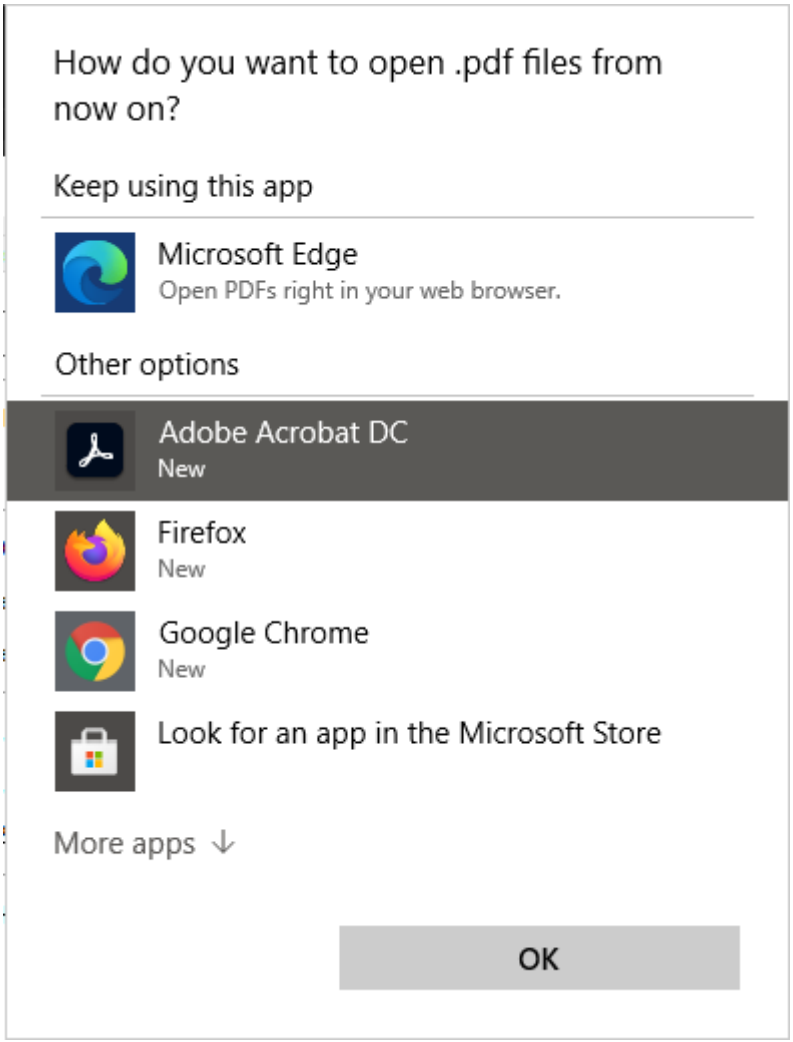

1. In file explorer, Navigate to one of the files that is of the type you would like to change
2. Right-click the file
3. Go to Properties (usually at the bottom of the drop-down menu

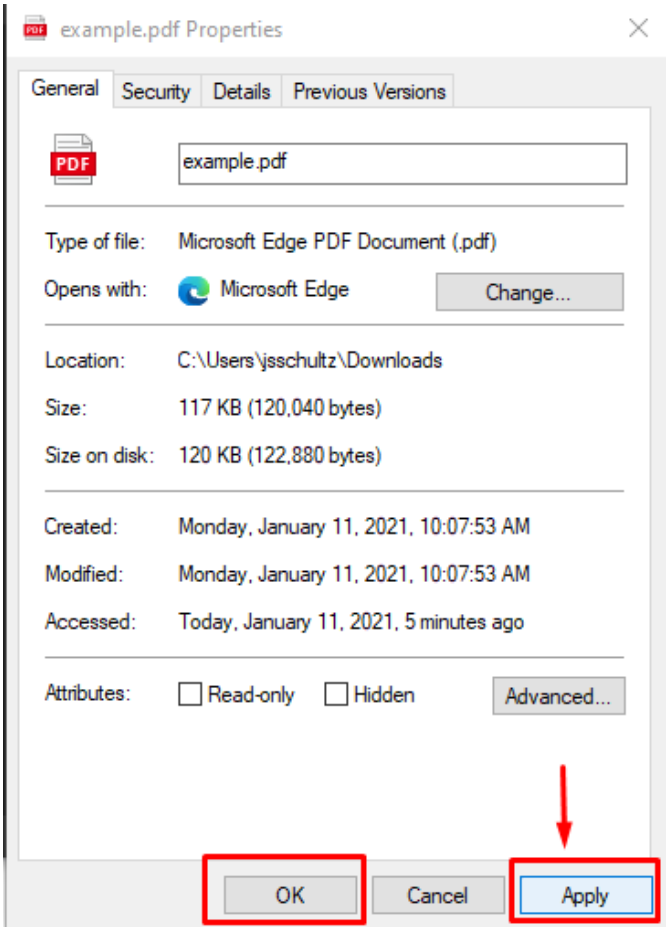

4. Click the **Change...** button

5. Select the new app you would like that file type to open with

6. Click the **Apply** button at the bottom, then click **OK** and that file type should now open in the selected application by default

Default

There is also a page under the Settings app, under Apps > Default apps
