Web Hosting

Brie McIntosh - 2024-12-06 - Services

CADTech hosts many websites, and offers Faculty/Staff and Students websites for academic use.

All of these hosted websites will follow this naming convention: http://**acountUserName**.cad.rit.edu

Features of our hosted environment

- PHP
- SSL
- MySQL
- Shell access
- Per User Crontab
- No quotas (within reason!)
- phpMyAdmin Access

To access your web space, you can connect to cad.rit.edu with your favorite SFTP client using your RIT computer account, or the username and password provided to you (if you have requested a group web account).

Every account also has a similarly named mySQL database created using the same username and password. Please take note when prompted for a mySQL server in your projects, you should point to **cad.rit.edu** and **not** localhost!

Personal Web Accounts

Students, faculty, and staff can request their own personal space at http://request.cad.rit.edu

Group Web Accounts

Group accounts can be requested at http://request.cad.rit.edu

Department Web Accounts

If you have a special request for your department web space, please contact our Service Desk by filing a ticket at https://helpdesk.cad.rit.edu
