CAD Services Planned Outage

2025-05-27 - Brie McIntosh - General

In preparation for an extended upcoming outage (TBD), CAD Tech Engineering will perform a full power-down and power-up of all servers on May 27, 2025, beginning at 5:00 PM. Consequently, all services will be rendered inaccessible, except for our Help Desk.

We are anticipating having all services back online by 6pm.

Upon restoration of service, we will promptly provide further communication.

We appreciate your patience during this period.

CAD Tech Engineering Team
